

James Schramko here with some pretty exciting news and this is about OwnTheRacecourse, my very popular course which I think every internet business needs to know about. This is really sweeping the internet marketing community because of how powerful it is, let me give you some examples.

The case study

The site SuperFastBusiness.com is the case study site from the OwnTheRacecourse course and it has generated up to nearly 50,000 podcast downloads a month, it gets well over 10,000 YouTube views a month, and the blog itself gets dozens of email opt-ins every single day and is verging on 30,000 visits per month. Now that is just in the last nine months, you can see that's quite powerful. I'm getting really serious with this OwnTheRacecourse philosophy now because I can see SuperFastBusiness becoming a super power blog. It's already a Page Rank 3 with about 1,600 indexed pages but it's going to go up even more and this is why. Because I'm giving away premium content like this course.

Why OwnTheRacecourse is good

You see, a lot of business owners are making a terrible mistake. They're actually putting their best content on other sites like YouTube, Facebook, Pinterest, LinkedIn, or Twitter and they forget to build their own website. SuperFastBusiness is my site, I own it, I control the domain and I can do what I want with it, and if I change the rules on myself well that's fine. But the problem with building on someone else's platform is they will change the rules and you'll be left short. So before you get caught out, please, [watch the whole OwntheRacecourse training](#) and right now it's absolutely FREE. I'm giving it away, and why would I do this? Why would I give away a course that I've happily been selling month-in and month-out? This is why.
